

emagine at a glance

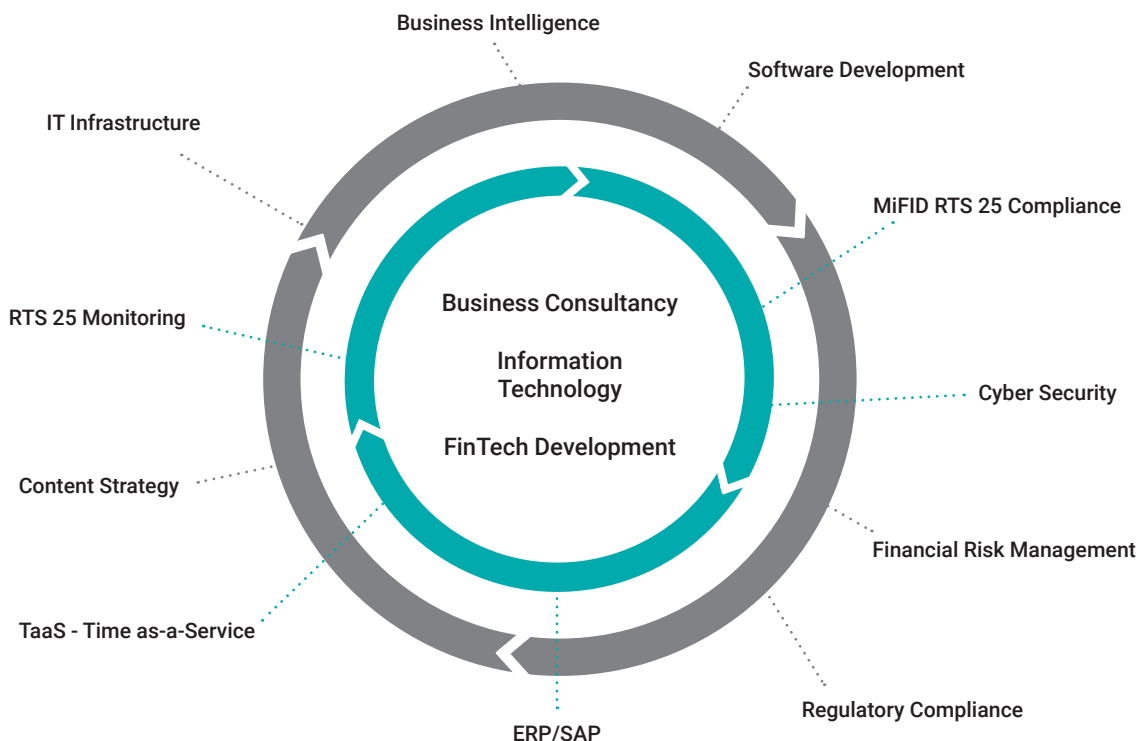

Providing onshore and offshore solutions for your organisation's demanding projects

On-demand access to the world's leading experts

emagine is a global professional services consultancy and solutions firm. Using our expertise and geographical reach, we support leading companies with their on and offshore business challenges. By combining our passion with our technical know-how, we succeed in delivering timely, bespoke solutions based on our Clients' needs.

Our consultants' expert skills and experience are best matched with an Agile delivery model to ensure project success and early delivery. We are not afraid to think outside the box, to achieve high impact, low population solutions and a cost-effective approach.

emagine's areas of expertise

How our approach promotes cost saving

emagine's approach to cost saving is simple, we deliver higher quality projects, using fewer resources. This enables an altogether lower aggregated cost. Our philosophy is to focus our energy on delivering a 'right-first-time' solution.

Our Clients benefit from the following:

PROJECT EFFICIENCIES

- High production
- Quality analysis
- Better solutions
- Reduced remediation

OPTIMISATION

- Timely delivery of projects
- Realisation of your required key success factors

OPPORTUNITIES

- Simplify complex operations and processes
- Identify business opportunities

Helping to overcome the challenges our clients face

Delivering on our Clients' projects and overcoming their challenges are our main priority. emagine provides strategic advice and quality consulting services to our Clients – we are experienced in understanding their business needs. emagine's aim is to work in a transparent partnership with our Clients in order to deliver world-class solutions for complex problems.

Our experts have first-class skills and experience, with specialised knowledge within the financial services sector. We have long-standing client relationships, which alone is a testament to our growing success. emagine is helping to shape the future of financial services by focusing on our Clients' key challenges.

We are thus able to assist our Clients in achieving the following:

- Implementing IT programmes and quality assurance.
- Analysing and adjusting business processes to meet current and emerging policies.
- Optimising business processes by utilising innovative IT systems.
- Gaining a competitive advantage in the marketplace.
- Creating productive and trusted relationships with investors, regulatory authorities and clients.
